Art Unit: 1745

Claims 84 and 85 are rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. There is no claim in the original patent that would completely encompass these claims. The closest claim, which would be claim 38 of the original patent, recites “reflector having a focal point”, a “first electric lamp having a filament at said focal point”, a “second electric lamp” and “a refractive lens for said second lamp”. The last two recitations would correspond to “a second electric lamp including a refractive lens”. However, claim 38 recites that the second lamp is “extending into said reflector on a side of the first electric lamp”, while claim 84 recites that the “second electric lamp” is “recessed in said second opening” of the reflector. This would not require that the second lamp extend into the reflector. Thus, new claim 84 is broader than original claim 38 in this aspect. Claim 85 also does not recite the lastly mentioned limitations of claim 38. A claim is broader in scope than the original claims if it contains within its scope any conceivable product or process which would not have infringed the original patent. A claim is broadened if it is broader in any one respect even though it may be narrower in other respects.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-85 are rejected as being based upon a defective reissue oath under 35 U.S.C. 251. See 37 CFR 1.175. Claims 84 and 85 have been added after the Office Action of 23 December 2005, but are not mentioned in any oath/declaration of record.

Art Unit: 1745

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP §1414.01 and §1444. If the claims 84 and 85 are amended to overcome the above rejection based on broadening, they would still need to be mentioned in this supplemental oath/declaration.

Applicant's arguments with respect to claims 81-85 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
